Pathway to the Future
Educational Cremation Center Brick Program

American author and entrepreneur Tony Robbins once stated, “The path to success is to take massive, determined action.” And at CCMS, we’re doing exactly that.

In order to continue embracing the innovative and inspired thinking that has been part of our legacy, we will break ground in Spring 2019 for our Educational Cremation Center. This cutting-edge enterprise and new facility will take the college, our students and our profession boldly into the future.

A path of engraved bricks will serve as the entryway for the college’s new Educational Cremation Center, linking the current building to the state-of-the-art learning facility. The path connects the past to our future – a way to salute the past, preserve the present and ignite the future.

Commemorative bricks are a great way to honor or remember a significant individual – such as your graduate. It’s a perfect way to celebrate your student’s success as they take the next determined step on their path to success.

The $100 cost includes the brick and 3 lines of permanent engraving; other sizes of bricks and memorialization are available at extra cost. The brick purchase is tax deductible and all proceeds support the Cincinnati College of Mortuary Science.
